

Pete Joe:

Ahoy Mates! Pete Joe here to welcome you aboard the SS Chatt State. We're truly glad you've chosen Chattanooga State for the first two years of your college education, career program, or technical training program. We know that you'll spend a lot of money and time on your education. So we're here to assist you with the necessary people, tools and strategies you'll need to accomplish all your goals. Orientation will ensure that you navigate the sometimes choppy waters as you cruise towards the bright future. Our journey will take us to several ports of call? Where we will go ashore to take a closer look at the academic programs, and support services available to Chatt State students. We'll also talk about everything you need to know to choose support or courses that are best for you at the end of this presentation. So make sure you don't just snooze through on the cruise! We've come up with a fun way to see if you really pay attention. Throughout the cruise you'll see my Joe buddies in the Comcast van before we cover an important point that you should remember. They'll probably try to run over me! At the end of this orientation, when you answer all the questions correctly, you'll be ready to register for classes. I'll be using some special Joe magic as we travel from place to place. We've got a lot to cover. Oh, sorry, I've been enjoying time in the sun. So let me go change and then we'll get started.
